

# OTrack Primary School

## EYFS Analysis

Spring Mid Term 2019-2020

# About this Report Pack

This reports pack has been designed to reduce the workload of senior leadership and other interested parties. The analysis looks at the attainment data for each aspect and compares it to the age related expectation set by the school, termly targets, expected progress and average progress.

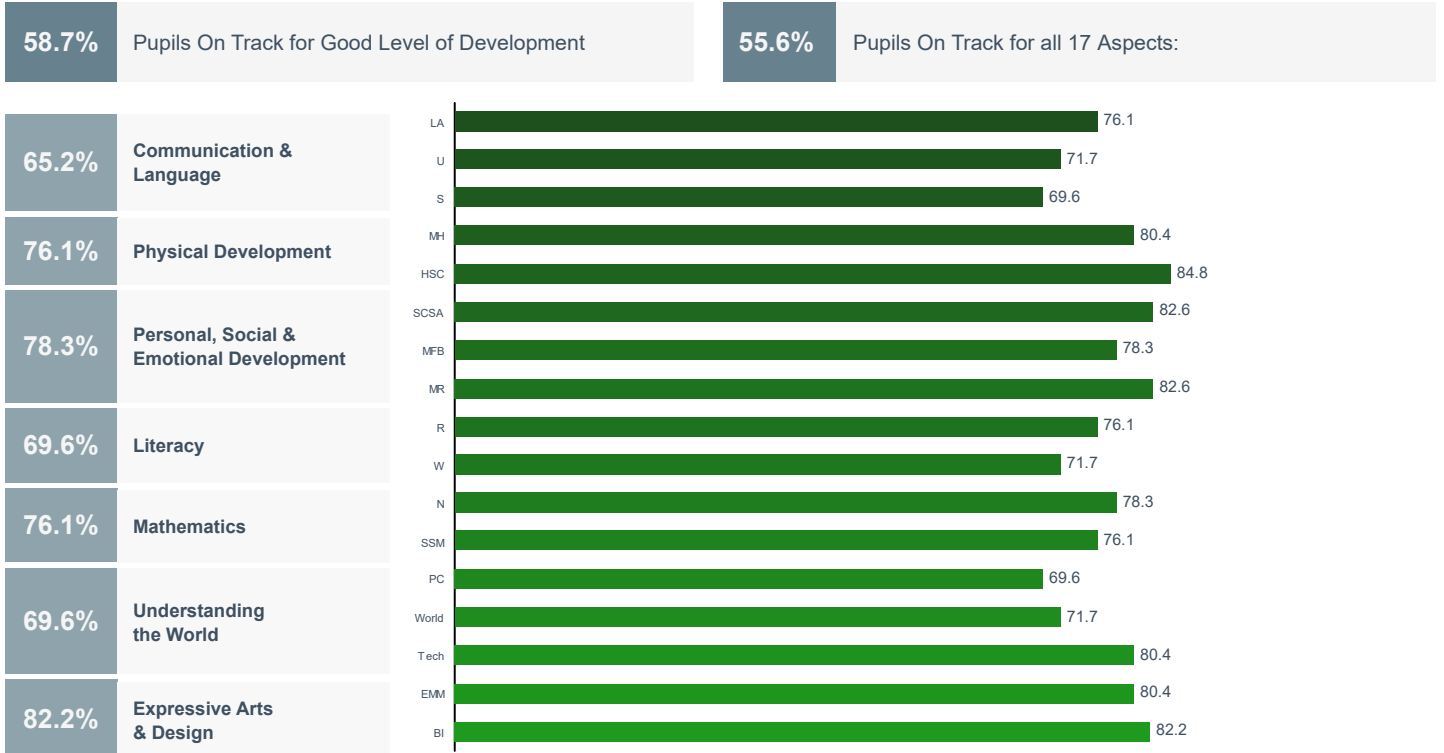

The pack will provide you with headline data for Nursery and Reception, each individual aspect and area of learning. There is then a termly breakdown for individual year groups.

## **Please Note:**

- The analysis within this pack is available through individual reports in OTrack itself. This pack has been designed to speed up the process of running multiple reports.
- The contextual groups data is cached on our database to reduce the time taken to process the data. The caching happens at 6am each morning, just after the sync from the MIS, should you be using Wonde. If changes are made on the day you order the pack, these changes may not be reflected in the document.
- We will not check that data is correctly entered into the system prior to running the packs. Therefore, it is the school's responsibility to check this prior to order.

# Reception

## At and Above your School's Age Related Expectation

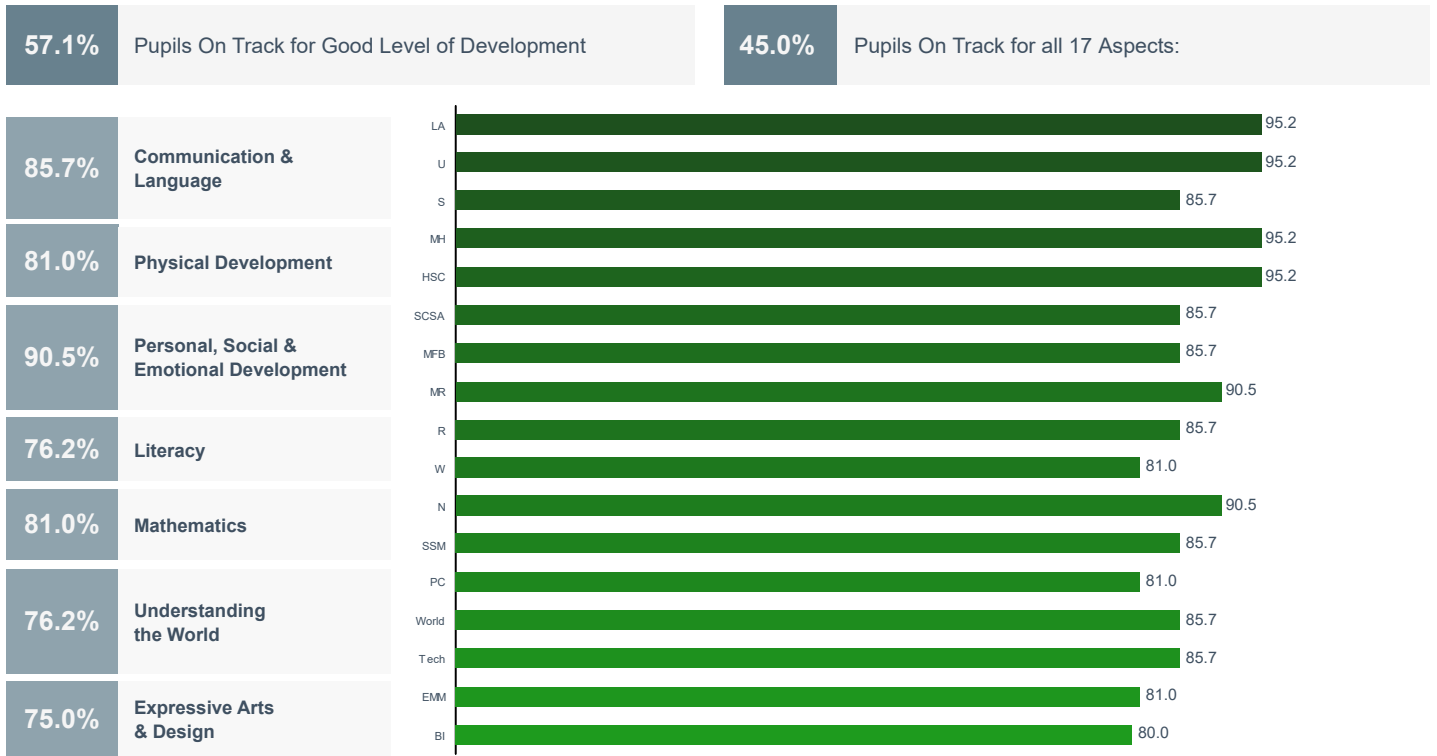

## Above your School's Age Related Expectation

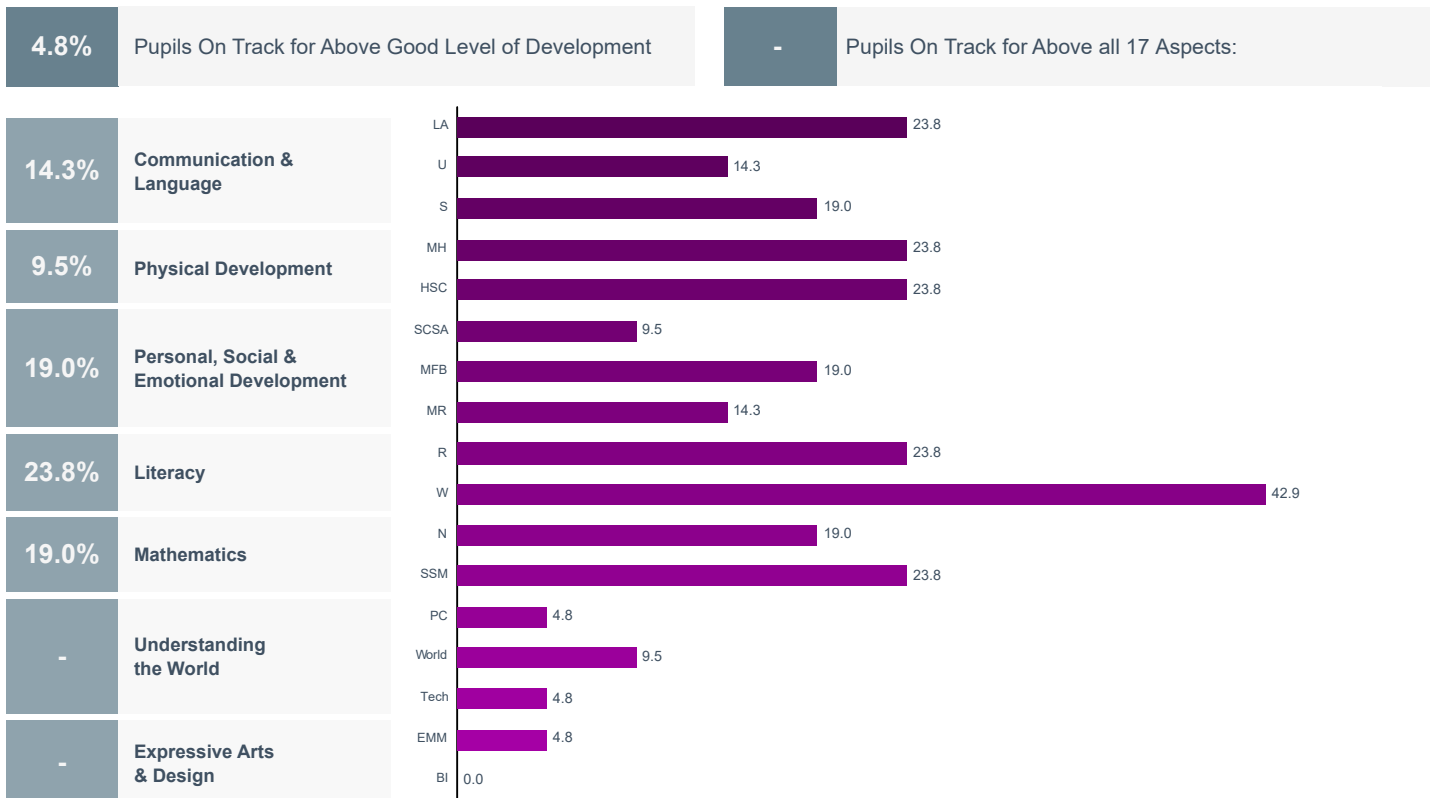

# Reception

Expected Progress from Previous Summer to Autumn End of Term (1 Point).

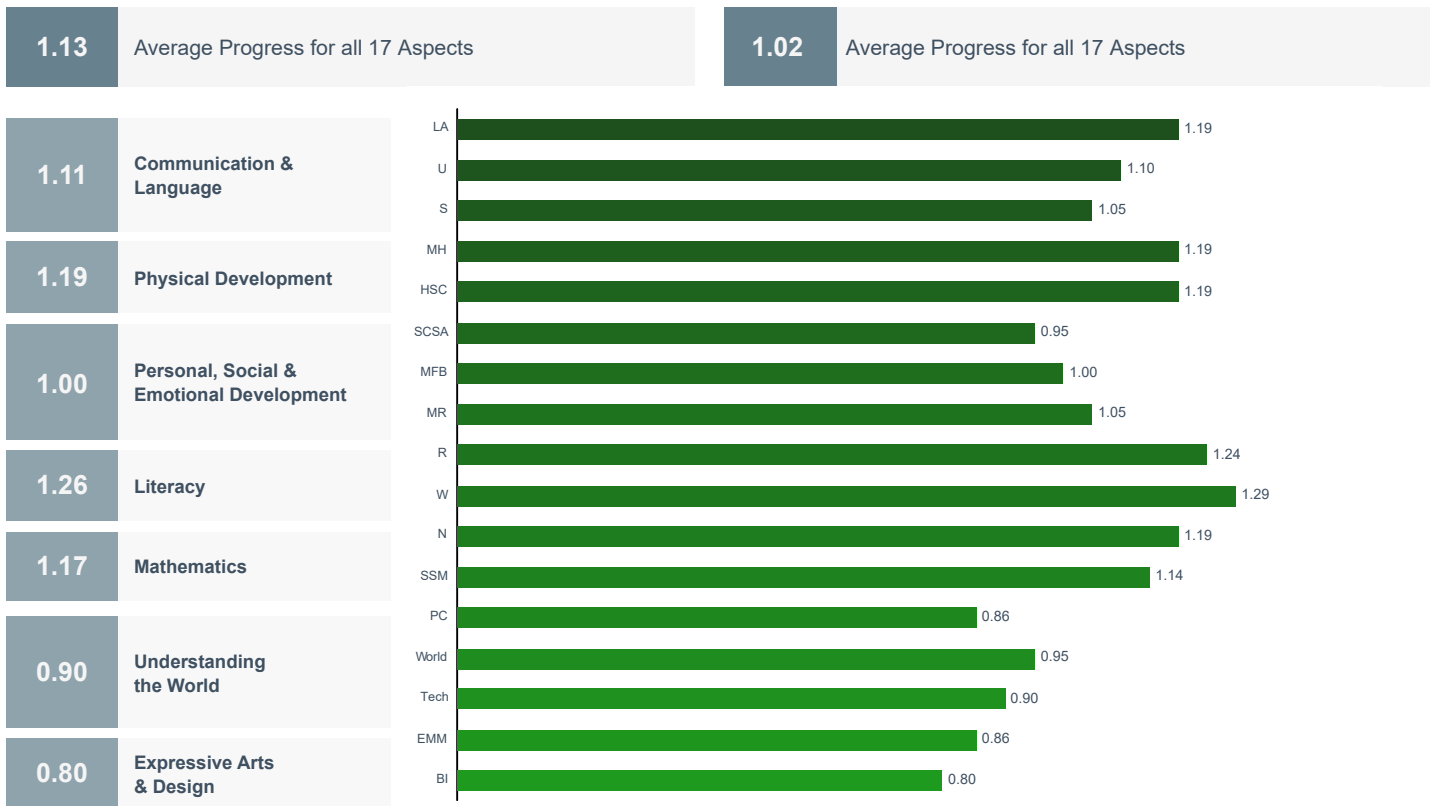

Above Expected Progress from Previous Summer to Autumn End of Term (Above 1 Point).

# Reception

Average Progress from Previous Summer to Autumn End of Term

# Reception

## At and Above your School's Age Related Expectation
