Bespoke Pupil Tracking

Home Learning Resources for Teachers

How to track learning outcomes when marking

Tom Parkinson

Why is it important right now?

It's very important that each pupil's educational progress is disrupted as little as possible.

- Pupils won't progress as they would in school
- Get ready for accelerated learning now
 - ✓ Know strengths, weaknesses and gaps in understanding
 - ✓ Identify groups that need different levels of support and interventions
 - ✓ Identify and prepare learning resources

Two resources you need to get started

Working with our T&L advisors, we've created these two resources to help you get started now.

1. Project-based home learning packs
 - ✓ Designed by subject experts
 - ✓ Tasks are linked to the Primary National Curriculum and the ELGs
 - ✓ Available for each year group
2. A tracking tool to record the outcome of tasks
 - ✓ Easy data capture for marking
 - ✓ Reports to identify strengths, weaknesses and gaps
 - ✓ Identify groups for support and interventions

Let's get started

Live demo.

- **Juniper Education:** Home Learning Packs
www.junipereducation.org/coronavirus-covid-19-resources-for-teachers
- **OTrack:** Formative Tracking Feature
app.otrack.co.uk
 - With the Juniper Education Home Learning Packs 'link'

What next?

How we can get this working for you.

Now...

1. Type 'set up' in the chat box, or email support@optimumotrack.co.uk
2. I'll contact you when it's live in your account – this week

Home Learning Pack Updates

- Live in your account every fortnight

Webinar Session 2

- Reports to identify strengths, weaknesses and gaps

Webinar Session 3

- Identify groups for support and interventions
- And more...

How to get help

General Support

- Please email: support@optimumotrack.co.uk

Training

- If you'd like me to train your staff how to do this, we can arrange online sessions asap
- £80 per hour

Thank you

Do you have any questions?
